# Clinic Management App Requirements

Mehta Clinic -- Project Brief, Version 1.0, 12 May 2024

## 1. Overview

This document outlines the requirements for the clinic management mobile and web application. The goal is to simplify patient appointment booking, clinic operations and payments.

## 2. Key Features

- Online appointment booking for patients
- Doctor and staff management
- WhatsApp and email reminders
- UPI and card payments
- Patient records and prescription management
- Admin dashboard with daily, weekly and monthly reports
- Support for multiple doctors and clinic locations

## 3. Timeline

Target launch: Initial version in 1 month.
Prescription management can be added in a later phase.

## 4. Notes

- App should be simple and easy to use for non-technical staff.
- Must work well on mobile devices.
- Keep the design clean and professional.
- Client will share more feedback after the first demo.
